

18th National Digital Conference

20th June 2023

Partnership Pack

The image shows a large audience seated in a grand hall, facing a stage. A speaker is visible on the stage, and a large projection screen displays a presentation slide. The slide features a portrait of Oliver Dowden and text including 'Keynote: Public Sector Innovation', 'Oliver Dowden CBE', 'Minister for Implementation, Cabinet Office', '@CDSteam', '@cabinetofficeuk', and '#digileaders @digileaders'. The 'DIGITAL LEADERS' logo is in the top right corner of the slide. The background of the slide shows a man in a suit speaking at a podium with 'accenture' and 'kain' logos.

The 18th National Digital Conference (ND2023)

For the first time in its 18 year history, 2023 will see the National Digital Conference take place outside of London, this year in the heart of Manchester's Science Park at 1 Circle Square.

We are taking a deep dive into Generative AI. Natural language processing tools and neural pathway models drive AI technologies that allows human-like interactions. How are people already using them across the public, private and non profit sectors and what does it mean for jobs? Also what regulations and ethical issues do these new technologies create.

As a Digital Leader join us to find out what you need to know to not get left behind and build a network with those wanting to share learning in this important new area of digital transformation
